

As a user I want to be able to register and log on so that I can have a personalized experience.

As a student I want to view a list of available SkillsBuild courses so that I can be directed to and start new learning courses.

As a student I want the app to record when I start a SkillsBuild course so that I can start and resume the courses.

As a student, I want to earn badges so I can showcase my achievements and progress learning skills on my profile.

As a user, I want to be able to track my learning and feel a sense of progression by being able to level up my account by completing courses and earning badges.

As an avid learner, I want to be able to see how my achievements scale up globally in a ranked leaderboard based on courses completed and achievements earned in order to help motivate me.

As a student, I want to be able to compare myself with my friends in a friends-only leaderboard in order to have friendly competition.

As a student, I would like to customize my avatar/profile based on my achievements and levels, to have a personalized touch to my learning experience.
